ABOUT ME

A UI/UX designer by passion, I am an undergraduate student at Indian Institute of Technology, Roorkee. Design, for me, is a constant introspection where I rediscover myself everyday. To have a better control over my work, I design as well as code the frontend templates for my projects. Born in Punjab (India) , I have learned Punjabi as mother tongue and English and Hindi at my school.

EXPERIENCE

Product Design Intern - HackerEarth

Worked as a summer intern at HackerEarth, Banglore. During this internship, I got exposure to user research, needs assessment, wireframing and prototyping.

Chief Design Coordinator - Information Management Group

At Information Management Group, I work with a team of 50 people to maintain the official website of the Indian Institute of Technology Roorkee and to design and develop intranet applications for campus intranet.

Design Head - Geek Gazette

At Geek Gazette, I lead a team of 13 designers to design the technical magazine of Indian Institute of Technology Roorkee every semester. The previous issues can be found on issuu.com/geekgazette2

PROJECTS

Buy And Sell Application (Sep '14 - Oct '15)

Designed e-commerce application "Buy and Sell" of IIT Roorkee. Designed the user flow, user interface and visuals, and developed the front end of this web application.

Industrial Collaboration Application (Jan '16 - Ongoing)

Designed the user interface of the research portal for students of IIT Roorkee to boost interdepartmental research project collaboration. Currently developing the frontend templates of this portal.

IMG Recruitment 2016 Website Design (Nov '15 - Dec '15)

Designed and developed the website to host the recruitment of Information Management Group, IIT Roorkee.

Forminator Application (Nov '15 - Ongoing)

Designed the user flow and user interface of form creation application for the administrative faculty of IIT Roorkee.

ACADEMIC ACHIEVEMENTS
